

Home Learning - Back to Nature

Let's explore the world outside on some nature walks this term! We would love to know what you have been up to, please do share your activities on Facebook too ©

Make a nature face! Emotions – is your face happy, or sad?

Create your own nature tree – collect all the leaves, twigs, flowers from a nature walk. What can you use to make the tree as colourful as you can! Which leaves and flowers work better? Why? Will you create a pattern, with smaller or larger parts? How many leaves will you use? How many flowers? What do you notice that is the same and what is different about your collection?

Nature Tree

Go on a colour hunt! Then sort and categorise your treasures!

Nature bracelets, we love these and can't wait to make them at pre-school. Make sure you share your wonderful jewellery creations with us too on Facebook!

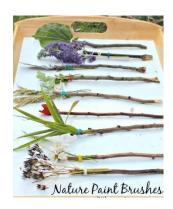

Let's do some maths - Can you place your twig collection in order of size, largest to smallest?

Why not go on a scavenger hunt. What can you see? How do things feel, rough or smooth? Which flowers smell the best? Can you remember your shapes? Can you find something round, or like a rectangle, or even like a triangle?!

DIY nature paintbrushes. A simple stick craft and outdoor process art activity. Do show us your master pieces afterwards on Facebook!

What magic can you perform with these nature wands?

Create a beautiful flower crown!

How does it feel? A sensory, communication and sorting textures activity, using new language.

A great activity to do with fallen leaves. Improves concentration, focus and cutting skills Why not make a nature collage out of the cuttings? Do share your creations with us on Facebook!

Five senses scavenger hunt activity sheet Explore the world around you, what do you notice?

Go on a minibeast hunt. What creepy crawlies can you find?!

How about doing a little science experiment? – which two colours will you use? What happens to the colour of the daisy when the stems are put in the coloured water? What happens to the coloured water? How long does it take for your daisy to start changing colour?

Do come back and take a look as we add more ideas of activities over the next few weeks. Enjoy exploring the world around you!
